

2024

Jerasa Engineering Limited

Company Profile

MD'S Welcome Note

Welcome to Jerasa Engineering Limited.

At Jerasa Engineering Limited, we are driven by a singular mission: To empower individuals and businesses through innovative solutions, fostering growth, sustainability, and positive impact in our communities.

Our commitment to Innovation, Collaboration, and Adaptability has guided us through every endeavor, resulting in [mention notable achievements or milestones].

As we look to the future, our focus remains on Market Leadership, Customer Satisfaction, and Sustainability. Together, we will continue to become the leading provider of sustainable solutions in our industry, driving positive environmental impact while maintaining exceptional customer satisfaction and fostering a culture of innovation and collaboration.

Thank you for your continued support as we embark on this journey together.

Warm regards,

Jerome Sandewa
Managing Director
Jerasa Engineering Limited

INTRODUCTION

Jerasa Engineering Limited started its operations in 2024. The company is registered by BRELA with registration number 174009473 .

The company is focused in making investment in electrical power solution and generator technologies

Jerasa Engineering Limited is intended to be a front runner in supporting the power industry, and offer customers professional services at competitive prices

Our Policies

Quality Policy

At Jerasa Engineering Limited, we are committed to delivering excellence in every aspect of our operations. We strive to consistently meet or exceed customer expectations by adhering to the highest standards of quality, safety, and reliability. Through continuous improvement, innovation, and the dedication of our talented team, we ensure the satisfaction of our customers while upholding our reputation as a trusted leader in engineering solutions.

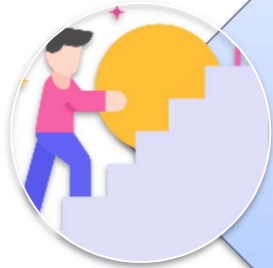

HSE Policy

Safety, health, and environmental protection are paramount at Jerasa Engineering Limited. We are dedicated to maintaining a workplace that prioritizes the well-being of our employees, clients, and the environment. Through proactive measures, compliance with regulations, and continuous improvement, we ensure a safe and sustainable operation for all.

Our Core Values

Innovation

At Jerasa Engineering Limited, innovation is our driving force. We continuously seek new ideas, technologies, and approaches to solve complex challenges, improve processes, and create value for our clients.

Collaboration

Collaboration fuels our success at Jerasa Engineering. Together, we leverage diverse perspectives and expertise to achieve common goals, fostering innovation and excellence in every project.

Adaptability

We embrace change, pivot quickly, and thrive in dynamic environments, ensuring we remain agile and responsive to evolving needs and opportunities.

Our Vision

- Empowering progress through engineering excellence, Jerasa Engineering envisions a future where innovative solutions shape a sustainable world.

Our Mission

- To empower individuals and businesses through innovative solutions, fostering growth, sustainability, and positive impact in our communities

Our Services

- **Consultancy Services:** Our consultancy services encompass a wide range of engineering disciplines, including feasibility studies, risk assessments, and project management. We provide expert advice and support throughout the project lifecycle, helping clients navigate complex challenges and achieve their goals efficiently.

Telecom and ICT (Information and Communication Technology): In the realm of Telecom and ICT, we offer specialized services such as network design, installation, and optimization, as well as ICT infrastructure development and cybersecurity solutions. Our expertise ensures reliable and secure communication networks tailored to meet the evolving needs of businesses and organizations.

Electrical Engineering: We specialize in the design, installation, and maintenance of electrical systems, including power distribution, lighting, and control systems. Our expertise ensures efficient and reliable electrical solutions tailored to meet the needs of various industries and projects.

Mechanical Engineering: Our mechanical engineering services encompass the design and optimization of mechanical systems, machinery, and components. From HVAC systems to industrial machinery, we deliver innovative solutions that enhance performance, reliability, and energy efficiency.

Civil and Building Engineering: In the realm of civil and building engineering, we provide comprehensive design and construction services for infrastructure projects, commercial buildings, and residential developments. Our expertise spans site development, structural design, and construction management, ensuring projects are delivered on time and within budget..

HVAC (Heating, Ventilation, and Air Conditioning): We specialize in HVAC design, installation, and maintenance, delivering customized heating, cooling, and ventilation solutions for residential, commercial, and industrial buildings. Our solutions prioritize comfort, energy efficiency, and indoor air quality.

Project Performed

Supply and installation of Diesel Generator.

Service & Radiator Maintenance of Diesel Generator.

Installation of Transformer and power factor improvement

Supply & Installation of Diesel Generator.

Electrical installation, ATS supply & Installation

Supply of ATS & 120 KVA Generator Installation

Supply and Installation of 22 KVA Generator & Electrical Installation.

Refubrication 30KVA Diesel Generator.
